

# Guidance on safe summer vacation measures in preparation for Covid-19

## □ Summary

- It is recommended to spend the summer vacation in families or small group of people to avoid the peak season in late July and early August, and divide the period into two or more short-term periods.

## □ Measures

### ○ Disperse the Time & Place of Vacation

- It is recommended to extend the vacation period for businesses with 100 or more employees by 2 weeks and disperse them from the 3rd week of June to the 3rd week of September
- \* Request that the percentage of vacation use during a specific period does not exceed a maximum of 13%
- Guidance on the results of 5<sup>th</sup> level prediction of congestion in the major tourist destinations and resorts.
- \* The Korea Tourism Organization's "Every corner of Korea" website: Guide to An outdoor-oriented safe travel map suitable for family travel, 25 places per season, 100 places in total
- Decentralized tourism resources such as walking trails, forest healing, etc. that you can go with your family, Focus on Wellness Tourist Map

### ○ Preparation of quarantine rules suitable for the characteristics of major tourist destinations

- Beaches: Expanded to 50 in advance reservation system (13 → 50) is implemented.
  - Information on the congestion level of all beaches are indicated through traffic lights, observe the white sandy section of beaches with a high concentration of users, maintain the distance between parasols
- Amusement facilities such as water parks: Limit the number of people using changing rooms, etc. to a certain number
- Reservations for accommodation facilities are limited to 4 people, and 8 people for immediate family members.

### ○ Establishing a foundation for rapid diagnostic testing in case if there is suspected Covid-19 symptoms during vacation

- Information of operating hours and locations of screening clinics and temporary screening centers
- Additional temporary and movable screening clinics will be installed at tourist destinations and vacation spots, and self-test kits will be provided at nearby pharmacies and convenience stores.

## < Detailed quarantine measures for each facility >

Facility classification	Detailed measures for each facility
